

PETROMAR® SUPER WASH SW-001

Petromar® Super Wash takes on the toughest grease, carbon or heavy oil cleaning jobs and cleans and degreases in one application without leaving any residue. So you can paint, weld or repair an area immediately

*Revolutionary breakthrough in Cleaners,
Degreasers and Dispersants*
**IS ENVIRONMENTALLY SAFE AND IT
WORKS ... UNBELIEVABLE!!**

100% non-toxic, water-based industrial cleaner “ PETROMAR® Super Wash (SW-001) “ Made in USA

1. APPLICATION

PETROMAR® Super wash is the water-based, non-combustible, non toxic, biodegradable and highly concentrated degreaser which is widely used by the world’s most respected industrial giants such as petroleum refineries, oil exploration contractors, oil ring operators, steamship lines, aircraft maintenance, cable car operators, railways, tug and barge operation, chemical storage tank farms and transit systems.

PETROMAR® Super Wash cleaner and dispersant is a revolutionary breakthrough in today’s industrial cleaners. This buffered alkaline chemical, unlike other similar products, produces exceptional results for petroleum based cleaning problems. In fact **PETROMAR® Super Wash** succeeds in cleaning situation where, up until now, only extreme caustic, hazardous preparations have been able to perform.

PETROMAR® Super Wash is water-based liquid which is non toxic and readily biodegradable; it has no petroleum-based additives, no halogens or acids, no sulfides, no ingredients that weaken metal and no phosphorous compounds harmful to the environment, **PETROMAR® Super Wash** has no flash point – it does no burn nor does it emit noxious fumes; it does not leave a residue, shelf life is indefinite.

PETROMAR® Super Wash is EPA (Environmental Protection Agency) registered, authorized by the USDA (United States Department of Administration), Accepted by OSHA (Occupational Safety and Health Administration) and Military approval.

PETROMAR® Super Wash has been formulated to range in application from the most difficult cleaning tasks such as removing heavy oils form tanks, machinery and concrete, to cleaning food stains from carpets.

Refer to the attached sheets for the **PETROMAR® Super wash** dilution best suited to your needs Technical Assistance is available. There is a wide

EXTRA HEAVY DUTY AND MAKE YOUR JOB EASIER !!

range of methods for using **PETROMAR® super wash**, from spraying on and wiping off to inducing **PETROMAR® Super Wash** into the solution tank for various cleaning devices, such as commercial scrubbers, steam machines, pressure-washers, butte worth systems, hydro blasters, etc.

2. SOME OF THE USES

- Dashboard, carpeting, upholstery, headliner, leather, vinyl, fabric, tires, carwash, tar remover, tire cleaner, bumper cleaner, sticker remover, mildew remover, bird dropping/insect remover, clean car engine & transmission, bridges, heads, slime.
- Excellent for steam cleaners, pressure washers, butte worth system, hydro blasters, power station lagoons, nuclear power plants, metal preparation, replacement of trichloroethylene.
- Special application: boiler coils, heat exchangers, pre-heaters, air conditioning coils, chiller lines, engines block, bromide pump and part.

3. DIRECTIONS

- In difficult cleaning situations, **PETROMAR® super wash** efficiency is maximized when it is sprayed on and allowed a working time of 30 to 60 minutes.
- To complete the cleaning job, agitation by brushing or wiping may be necessary, a bucket solution of water and **PETROMAR® Super Wash** should be used to rinse the rags or brushes (2 of to 1 part **PETROMAR® Super Wash** will be more than adequate).

4. GENERAL INFORMATION

PETROMAR® super Wash is an excellent for use in a variety of oil or chemical spills, it is effective on petroleum materials extending from light unstable distillates such as ; naphtha, xylem acetone, MEK, benzene, toluene, gasoline, jet fuel, diesel, as heavy heating oils and crude oil

In dealing with chemical spills there are of course several factors to course concern, explosion, toxic emission, confinement, and finally clean up **PETROMAR® Super Wash** can play a decisive role in category.

- Explosion: one essential property **PETROMAR® Super Wash** will exhibit when given the opportunity to reach chemically with the variety of solvents as mentioned above will be to render the volatile nature of those materials inert.
- Toxic emissions: it produces a valid neutralizing effect when used in this situation.
- Confinement : By adjusting the viscosity of the basic formulation (with thickening agents) the product can the be applied in a manner so that it can act to keep the spill material in place as it works to clean the contaminated are.

NOTE :

- **Effectively in Use with Warm Water**

PETROMAR®

SUPER WASH SW-001A

USAGE GUIDELINE

Heat exchangers, Vessel, Holding tanks (fuel tanks), oil stained concrete, tank cleaning degreasing, structural & exterior cleaning, engines, carbon on engine heads, bunker C, Cosmo line, grease traps, overhauls, transformer maintenance, engine block, quarry cranes, straddle carriers, railway tracks and prime movers, aircraft cargo holds and wheel wells, locomotives.

PETROMAR®

SUPER WASH SW-001B

USAGE GUIDELINE

Heavy equipment, general car and trucks, cleaning deck, platforms, engine rooms, bulkhead, degas tanks and barge compartments, petroleum based drilling mud and creosote, production machinery, engine oil and lubricants leakage at car parks and workshop, aircraft wing spars, down hole tools, cable car – wire roper.

PETROMAR®

SUPER WASH SW-001C

USAGE GUIDELINE

Bilges, exhaust stack smoke, rubber clothing, oil soaked ground & beach sand, vinyl, decks, teakwood, air conditioner filters, carpeting, fiber glass, fish scales, greasy floors, restaurant kitchens, toilets, commercial buildings, car parks, petrol stations, fuel pump spillage, markets, general cleaning of dirt and greasy surfaces on production floors, machine shops, garbage disposal truck and storage area, Etc.
